

ICAT-FHI Symposium: Approaching to the Catalysis Reality

September 11, 2023

Seminar room B&C, 4th floor, CRIS building(創成科学研究棟), Hokkaido University
Hybrid meeting (MTG link will be provided after registration)

Registration site: <https://forms.gle/vjdx43F7QaaGZw6j7>

Prof. Karsten REUTER

Prof. Satoru TAKAKUSAGI

Associate Prof. Kenji IIDA

Assistant Prof. Takashi TOYAO

Chair: Prof. Jun-ya HASEGAWA, Institute for Catalysis (ICAT)

- | | |
|-------------|--|
| 11:00 | Greeting, Prof. Ken-ichi SHIMIZU, Director, ICAT |
| 11:05-12:05 | "Out of the Crystalline Comfort Zone: ML-Empowered Modelling of Operando Energy Conversion Systems"
Prof. Karsten REUTER, Director, Theory Department, Fritz-Haber-Institute(FHI) of Max-Planck-Society(MPS) |
| 12:05 | Lunch |
| 13:00-13:40 | "Atomic-level visualization of surface catalytic reactions by <i>in situ/operando</i> surface science techniques"
Prof. Satoru TAKAKUSAGI (ICAT) |
| 13:40-14:20 | "The Effect of Bias Voltage on the Interface between an Electrode Catalyst and an Electrolyte Solution Revealed by Theoretical and Computational Approach"
Associate Prof. Kenji IIDA (ICAT) |
| 14:20-15:00 | "Data-driven catalyst design for CO ₂ hydrogenation reactions"
Assistant Prof. Takashi TOYAO (ICAT) |
| 15:00 | Closing remark, Prof. Kiyotaka ASAKURA (ICAT) |

Contact: Jun-ya HASEGAWA (hasegawa@cat.hokudai.ac.jp, 011-706-9145)
